Saying goodbye and telling their story

It's never easy, but saying goodbye is a natural and healthy part of the grieving process. This can occur in a number of ways - from a more traditional ceremony uniting family and friends or a private, more meaningful service with your immediate family.

Make your loved one's tribute personal and unique

Whether families opt for burial or cremation as a means of final disposition, wood products manufactured at Victoriaville & Co. offer a “neutral disposition” option, meaning they are designed for both burial and cremation.

Viewing the body helps with the grieving process

Allows

- Psychological realization that the death is true
- To see your loved one's in a state of peace
- To say your final goodbyes
- To express your emotions and share the loss collectively with loved one's

Bespoke Collection **Plus** allows families to personalize the casket with different fabric colors.

The head panel allows the possibility to insert personalized photos.

Have you chosen a final resting place for your loved one's cremated remains?

4 popular options are available to you.

You can bring the cremated remains home with you

HOME

You can place them in a columbarium

NICHE

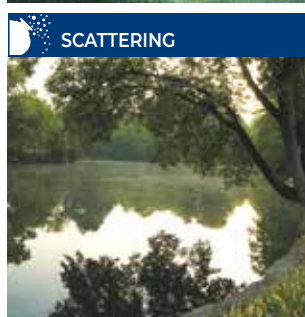

You can inter them in a cemetery

BURIAL

You can scatter them

SCATTERING

Depending on how you want to grieve and preserve the memory of your loved one, some options may be more appropriate.

For example, scattering is a strong symbolic gesture but leaves no permanent memorial for future generations.

Your funeral advisor will guide you so that you can make the best decision for you and your family.

The exclusive details and elaborate symbolism are not immediately identifiable as urns, but rather as pieces of art. The contemporary shapes and unique bronze color make these ceramic urns a piece of art which complements any kind of interior décor, while continuing to act as a precious memento.

All the crystal urns are manufactured from Bohemian crystal. The distinguishing feature of this crystal from the Czech Republic is that it shines as brightly as real diamonds. Each urn is hand-blown by a skilled professional. After the urn has been fashioned, decorative effects are applied. Lastly, the entire urn is dipped in liquid crystal which adds another layer of transparent crystal for a high-shine effect.
